FOR YOUR INFORMATION

To whom it may concern

Roydhouse Pest Management Ltd will be running a possum control operation on the contract known as Makahu Inangatahi . This contract starts at Puketitiri extending from the Kaweka State Forest Park down the Mohaka River to the Inangatahi Stream and through to the Taupo Road including Pure Adventure Mountain Valley Ltd and McVicars property. All landowners and adjacent neighbours will be notified. Weather permitting this operation's duration 17.7.11 – 31.5.12

As required by our MOH and as part of our operation we are advising local hunting clubs that toxin used will be Feratox (encapsulated cyanide) contained within lure, in Biobags stapled to trees. All baits are dyed green and are deadly poison and harmful to humans. Do not interfere with baits and do not allow children and dogs to wander unsupervised.

There may also be blue Biobags containing Feracol-cholecalciferol (Vitamin D3) All baits are a paste and dyed blue. These baits can be harmful to humans and are harmful to cats, dogs and domestic stock. Do not interfere with baits and do not allow children and dogs to wander unsupervised.

In some permitted areas there may be bait stations filled with Brodificoum present. These baits can be harmful to humans and are harmful to cats, dogs and domestic stock. Do not interfere with baits and do not allow children and dogs to wander unsupervised.

There will be signs erected on all access points.

An information sheet on this poison is enclosed or has previously been sent to you. Should you require any further information please do not hesitate to contact us.
